

JENLIVAL

Start activating our liver!

Jenlival™ is formulated by R&D veterans, Jenlival™ is a botanical beverage of mixed nutrients with milk thistle, vine tea, BioPerine® with loads of antioxidants to keep our liver+overall health functioning optimally!

INTRODUCTION

In this generation, people tend to burn the midnight oil in preparation for exams or even busy doing their assignments and also going clubbing with their friends until the next morning or even 3-4 am. Besides, when they are in clubs, they also consume alcohol. They thought they are putting themselves in a relaxed mood, but actually, they are putting themselves in such a dangerous way, because the liver performs work such as detoxing blood, processing nutrients, and many more, it needed rest after a whole day of working also same as people right, people also need rest. Hence this will cause the healthy liver to become a diseased liver or even come to the worst, it may lead to liver cancer.

NUTRITION INFORMATION MAKLUMAT PEMAKANAN

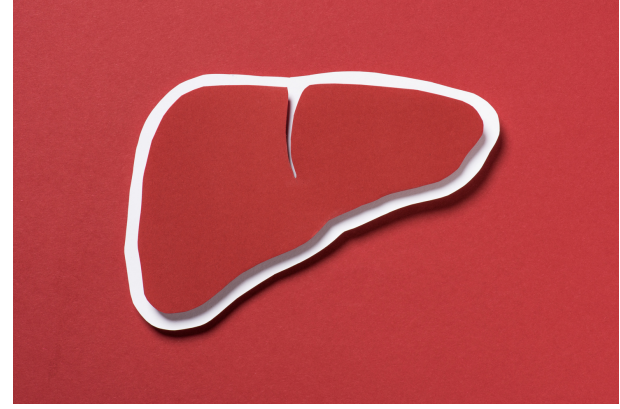

Serving Size/Saiz Hidangan : 3g
Serving Per Package/Hidangan Setiap Pakej : 15

Amount/Jumlah	Per 3g/ Setiap 3g	Per 100g/Setiap 100g

Siliphos® is a patented form of milk thistle extract that has enhanced bioavailability and absorption. Milk Thistle (*Silybum marianum*) is a flowering herb that has been used for centuries for its potential liver-protective properties.

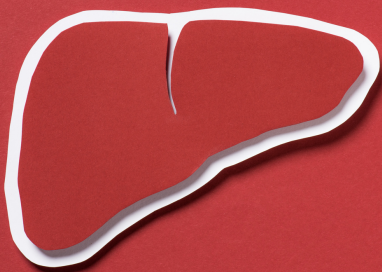

BRANDED INGREDIENT

BIOAVAILABILITY BOOSTER

We've enhanced the effectiveness of JENLIVAL with the addition of BioPerine®. It is a powerful bioavailability enhancer that can absorb nutrients by at least 30%.

FREQUENTLY ASKED QUESTIONS

What are the optimum servings per day?

2 sachets per day, after any meal & before bedtime.

What if I'm allergic to certain ingredients?

Anybody is safe to consume it because these are just nutrients that humans are missing out on.

Is it okay to consume it if I'm on any kind of medication? (such as high blood pressure, high cholesterol, diabetic patient)

Usually, anyone can consume it. Besides, even if you're taking any kind of medications that are mentioned for quite some time, the human body system still requires these kinds of nutrients that we can't intake via our meals and/or beverages.

Can I take it together with my other supplementary products by other brands/manufacturers?

Most of the time, mixing supplements won't cause any harm to your health but you won't be able to identify which one works best for yourself.

What if I'm pregnant? Can I still consume it?

Don't you think that pregnant women require even more nutrients whenever they are conceiving, which is the purpose why you/they have decided to consume nutrition/food supplements in the first place.

Can kids consume it too?

Unfortunately, if you're 18 years old and above, you're most likely to benefit from it. But due to its nature of it which consists of nutrients and not medication, hence younger people can consume it too.

Is it made up of natural ingredients?

It's 99.99% made out of natural/organic ingredients which typically won't cause harm to you.

How much time is required to see the result if I consume it according to the instruction?

Oftentimes, it will take about 3 months to fully experience the benefits! 1 very important factor that will affect the results too is if you're disciplined enough or following our guidance thoroughly you're likely to experience the benefits in less than 3 months!

Is JenesisLife certified by any industry authorities?

Please refer to the "[verifications page](#)" for more information regarding the certifications JenesisLife have obtained.

Where is the manufacturing origin of JenesisLife?
