

JENCELL

Start Rejuvenating Our Cells!

Formulated by R&D veterans, Jencell™ is a mixture of essential nutrients with stem cells and antioxidants to preserve immunity, health and general wellbeing!

Introduction

Every day we are exposed to the sunlight, and when working we also have a long period facing the computer or even phone, the UV lights or blue rays may penetrate our skin. This may cause the production of free radicals in the body and the free radicals may damage the DNA and also the healthy cell in our body. This may reduce the formation of elastin, collagen, and also the fibroblast in the skin. With that, the skin will occur wrinkled, dry, and saggy skin. Besides if even more worst it will lead to skin cancer.

Benefits Of The Product

- Strengthens the immune system
- Enhances antioxidant defense
- Prevents premature aging
- Promotes skin renewal and regeneration
- Improves wrinkles, skin elasticity, and firmness
- Allows healthy glowing skin complexion

BRANDED INGREDIENT

CyanthOx™ Sea Buckthorn Extract is a natural and potent ingredient derived from the sea buckthorn plant (*Hippophae rhamnoides*) and is known for impressive nutritional values including powerful antioxidants. Besides, it is carefully produced using advanced extraction techniques to capture the full spectrum of bioactive compounds present in the plant.

We've enhanced the effectiveness of JENCELL with the addition of BioPerine®. It is a powerful bioavailability enhancer that can absorb nutrients by at least 30%.

FREQUENTLY ASKED QUESTIONS

What are the optimum servings per day?

2 sachets per day, after any meal & before bedtime.

What are the optimum servings per day? What if I'm allergic to certain ingredients?

Anybody is safe to consume it because these are just nutrients that humans are missing out on.

What if I'm pregnant? Can I still consume it?

Don't you think that pregnant women require even more nutrients whenever they are conceiving, which is the purpose why you/they have decided to consume nutrition/food supplements in the first place.

Can I take it together with my other supplementary products by other brands/manufacturers?

Most of the time, mixing supplements won't cause any harm to your health but you won't be able to identify which one works best for yourself.

Is it okay to consume it if I'm on any kind of medication? (Such as high blood pressure, high cholesterol, diabetic patient)

Usually, anyone can consume it. Besides, even if you're taking any kind of medications that are mentioned for quite some time, the human body system still requires these kinds of nutrients that we can't intake via our meals and/or beverages.

Can kids consume it too?

Unfortunately, if you're 18 years old and above, you're most likely to benefit from it. But due to its nature of it which consists of nutrients and not medication, hence younger people can consume it too.

Is it made up of natural ingredients?

It's 99.99% made out of natural/organic ingredients which typically won't cause harm to you.

How much time is required to see the result if I consume it according to the instruction?

Oftentimes, it will take about 3 months to fully experience the benefits! 1 very important factor that will affect the results too is if you're disciplined enough or following our guidance thoroughly you're likely to experience the benefits in less than 3 months!
